Business Hours of Operations: \_\_\_\_\_

**\*\* Note: Additional documentation, either from a manufacturer or engineering firm, must be submitted as proof of each vehicle capacity and proof of Insurance. Application cannot be processed without this information.**

**\*\*Please verify that truck capacity certifications are attached. The truck capacity must be verified by weighing the truck without a load and reweighing with a load of water in order to verify actually hauling capacity of truck.**

**SECTION C – WASTE TRANSPORTATION INFORMATION**

Do any of these vehicles transport wastes other than household septic tank wastes? Yes  No

If yes, please list on the following page the other types of wastes (e.g. chemical toilet waste, chemical wastes, oil, grease, used motor oil, etc.), and where these wastes are disposed of (e.g. chemical recycling, FOG renderer, hazardous materials facility).

Type of Waste	Business Name and Address of Non-Domestic Customer	Where Disposed
_____	_____	_____
_____	_____	_____
_____	_____	_____

Please list all other locations your company is authorized to discharge septic Wastes.

Site	Phone #	Measured or Full Loads
_____	_____	_____
_____	_____	_____

**CERTIFICATION STATEMENT**

I have personally examined and am familiar with the information given in this application and believe that the submitted information is true and accurate, and complete. In addition, I am aware of the conditions and requirements for using the septic dump facility and agree to meet them at all times. Failure to comply with all conditions may result in the immediate suspension or termination of the permit and/or possible penalties.

Janis Richardson, Environment Programs Coordinator  
Industrial Pretreatment Program  
Western Virginia Water Authority  
1502 Brownlee Ave., SE  
Roanoke, VA 24014

### **Required Acknowledgments/Rules for discharge at the WVWA**

Septic Service Company acknowledges that they understand that hazardous wastes (as defined by the Environmental Protection Agency) are not permitted for disposal at the Water Pollution Control Plant.

The only approved discharge point for the WVWA is located at the Plant unless approval, in writing, is granted by the Plant Manager.

Company acknowledges understanding that **industrial discharges must be pre-approved** by the WVWA.

To obtain dumping privileges at the WVWA, the company agrees to the right of designated WVWA personnel to review appropriate business records and perform facility/ equipment/ operations audits.

To maintain dumping privileges at the WVWA, the company agrees to correct deficiencies found during inspection audits.

The Western Virginia Water Authority reserves the right to take samples of waste for testing from haulers at random and without notification.

The WVWA will not accept highly concentrated loads of grease, specifically this applies to use of separation equipment that creates extremely high concentrations of grease. Restaurant grease traps are generally acceptable for discharge; however they must not be de-watered prior to delivery at the Plant.

The Company acknowledges the right of the Western Virginia Water Authority to provide information contained within this application or found during the administration of this agreement with Appropriate State or Federal Agencies.

The company understands that discharge rights at the WVWA represent a privilege, which can be revoked for failure to comply with guidelines and requirements. All revocations will be immediately reported to the Virginia Department of Health.

The undersigned has full authority to sign this acknowledgment and to bind the applicant to this agreement. The undersigned individual certifies that the requirements outlined in this application are understood and will be followed and that any questions regarding such will be interpreted by the Western Virginia Water Authority. The undersigned further certifies that the information contained in this application is truthful to the best of their knowledge:

**\*\*Upon approval of this application, you will receive a certificate to discharge via regular mail within two or three weeks.**
