

Melrose Area Waterline Replacement Project

A project to improve water quality, reduce outages, and improve domestic and fire flows

Phase 1A

- Replacement of 23,200 feet of 2-inch galvanized pipe and pre-1930's cast iron
- Funding: Bipartisan Infrastructure Law through Virginia Department of Health
- Estimated completion: April 2025

Phase 1B

- Replacement of an additional 15,700 feet of 2-inch galvanized pipe and pre-1930's cast iron
- If funding is received, the construction time frame will be Jan 2025 - May 2026

UPDATE

Project Progress

- Three crews are working on installing the water main
- Current line will remain active until installed and tested to prevent service interruption
- One crew currently working near Lucy Addison Middle School to avoid any issues once school starts
- Crews utilizing the Carroll Avenue Water Tank lot to stage and store materials

After new pipe and valves are installed in the trench, the contractor will patch the trench in preparation for full street paving by the City of Roanoke.
